

Silver On-site Service

Need help now? It's just around the corner.

Quality management of a large fleet of mobile devices is a key to operational excellence. Less downtime results in higher productivity of your mobile workforce. That's why it is important to manage the risks of mobility proactively.

With Silver On-Site Service you will receive a Toshiba original service part on the next business day giving you as a specialist the possibility to keep your workforce running smoothly to deal with inevitable disruptions without delay. Whenever an issue occurs, you get dedicated phone support, including remote diagnostics. If the service issue cannot be resolved, a Toshiba certified professional will be dispatched to repair the device on-site within the next business day*1.

Furthermore, the Silver On-Site Service comes with a Warranty Extension and allows you to add additional services which cover the replacement of your battery or docking device once their warranty has ended, and the retention of your defective hard drive in case it needs to be replaced.

Service Specifications

Service Description	This service is a hardware repair service and includes a telephone diagnosis to determine the failure on your Toshiba hardware. Should a repair be necessary, Toshiba will either send a service part (CRU part which can easily be replaced by the customer themselves) or dispatched a Toshiba Certified Engineer to customer's location by the end of the next business day*1. Please note that in order to qualify for the Next Business Day Response Service, the service claim must be logged before 3 p.m. local time.

Additional Services which can be added on top of the Silver On-site Service

• **Battery Replacement Service:**
Add an additional Battery Replacement Service to extend also the warranty of the battery. You will get a free exchange after the battery standard warranty has ended.*2

• **Hard Drive Retention Service:**
Add an additional Hard Drive Retention Service and retain your defective hard drive should it need to be replaced.*3

• **Docking Replacement Service:**
Add an additional Docking Replacement Service to extend also the warranty of your Toshiba Port Replicator or dynadock™.*4

*1 Next Business Day Response is subject to parts availability and Service Level Agreements.

*2 Battery Replacement: ONE free exchange after the battery standard warranty period has ended (1 year), if the battery capacity is less than 50%. The remaining battery capacity can be checked via the preinstalled PC Health Monitor. If CRU is applicable, the replacement battery will be shipped to you.

*3 Hard Drive Retention: The hard drive remains your property, but will not be eligible for any ongoing support. Any additional products and components, as well as additional hard drives replaced under warranty, shall become the property of Toshiba.

*4 Docking Replacement: When claiming a Docking Device as defective, a new or refurbished Docking Device that is equal to a new product in performance will be sent to you. If requested by Toshiba, the defective Docking Device has to be returned to Toshiba at Toshiba's expense. In the event that the defective Docking Device is not received by Toshiba within fifteen (15) working days following receipt of the new or refurbished Docking Device, you will be charged the retail value of the replaced Docking Device.
